2. Plans:

At long last, an exchange with the USSR of 4 or 5 persons in the field of "radio-relay telephonic communications and of transmitting television programs between television centers" was proposed to State by the Soviet Embassy in an Aide Memoire of 28 August 1958. The EIC/ETSC accepted the proposal "in principle" with the proviso that the response include a query as to what the Soviets wish to see and where, and also what they have in mind to show the US team and where.

3. Administrative Problems and Patterns:

25X1A9a a. It is indeed a pleasure to report that collections are already being received against our requirements, prepared by Major [REDACTED] on East Germany, RD-C 1865, 29 April 1958, which were later associated with the new broadfront Project 00.2416, Gaps in Information Statements.

25X1X4 b. During the month [REDACTED] were cited for unusually good collections against requirement RD-C 1828.

4. Particular Problems:

None.

5. Recommendations:

None.

25X1A9a

[REDACTED]
